

2026 Event Requirements for Senior (Olympic & Paralympic) Australian Rowing Team

Approved & Updated November 2025

Please Note: Rowing Australia Limited (“RA”) intends to review these Selection Requirements by no later than September of each year but may review and update these Selection Requirements at any time, including by announcing and publishing further or varied requirements and standards from time to time prior to the relevant selection event or trial and the publication or notification shall take effect in accordance with the RA Selection Policy.

Background:

The Rowing Australia (RA) National Selection Policy – Senior Team (Selection Policy) outlines the broad selection criteria for all rowers and coxswains and can be viewed on the RA website at <https://rowingaustralia.com.au/national-team-selection>. This document operates as an appendix to the RA Selection Policy and outlines the activities that rowers and coxswains must complete to be eligible for selection consideration for the Australian Senior Team.

All Athletes must complete all activities stipulated in these Event Requirements unless:

- expressly provided otherwise in these Selection Requirements; or
- granted an exemption for Extenuating Circumstances in accordance with the Selection Policy.

Important Notes:

- Where an athlete is provided an exemption from an activity stipulated in this Selection Requirement, the athlete will not be excluded from consideration for selection on the grounds that the athlete failed to satisfy that activity in the Selection Requirements. Without limiting the application of the selection criteria and the discretion given to the selectors in the Selection Policy, an exemption does not entitle the athlete to participate in further or additional trials into a selected or priority boat, or a crew that has already achieved a benchmark or performance standard or prognostic.
- In addition to the activities stipulated in these Selection Requirements, athletes invited to the National Training Centre (“NTC”) must also complete all activities stipulated in the NTC Invitation Guidelines.
- Under the Selection Policy, RA may, as a matter of policy, elect not to send a boat or boats to an event. RA will focus its resources on maximising performances at the 2028 Olympic and Paralympic Games. Therefore, it is not a priority of RA to select non-Olympic and non-Paralympic boat classes. Notwithstanding this, athletes selected as reserves to support selected Paralympic Class boats may be selected to race in a Non-Paralympic categories at World Cups and international regattas. Lightweights will only be considered for selection in exceptional situations based on medal winning probability.
- Specific requirements for lightweight athletes are set out in Note 5.
- With appropriate notice (not less than 7 days) National Team Assessments and Testing can take place within the NTC’s that are not listed in these Selection Requirements.
- Crews and scullers may be confirmed at any point during the selection process. This will facilitate certainty and optimise crew and sculler development.

In determining the athletes who will be invited to the National 5km Time Trial, the Selectors will assess performances in the Domestic 5km Time Trials and the 5000m ergometer testing. Failure to be invited to the National 5km Time Trial does not preclude an athlete from being selected in the Australian Rowing Team. Athletes not invited to the National 5km Time Trial must complete the December Domestic 5km Time Trial (see Note 4). After the 5km Time Trials athletes maybe invited for further assessments.

For the December National and Domestic 5km Time Trials: All competing rowers nominating for selection must compete in the 1x, in exceptional circumstances the Selectors may consider a 2- entry. PR3 Rowers may be directed to sculling or sweep.

6) Lightweight athletes:

There will be no RA or program funding available for lightweight crews. National Team touring will be fully self-funded.

Lightweight athletes are required to be within the following weight ranges for racing, time trials, and any national testing:

Therefore, selectors may stipulate individual race weights for athletes at the selection trials.

7) Selection Trials:

Participation at the National Selection Regatta will be by invitation only. RA will announce (in accordance with the Selection Policy) the list of athletes invited to the Selection Trials by no later than 7 days after the conclusion of the Australian Rowing Championships.

In determining the athletes who will be invited to attend the National Selection Regatta, the Selectors will assess performances in the singles and pairs of the respective categories at the Australian Rowing Championships as well as activities specified in these Selection Requirements against the criteria in the Selection Policy.

NTC athletes have an automatic invitation to the National Selection Regatta.

8) Crew boat assessments and testing:

Crew boat testing and assessments will be separate from the National Selection Regatta. In principle these tests will be done within the National Training Centres.

The Selectors reserve the right at their sole discretion to choose the crew combinations, seat racing partners and the matrix of seat racing in National Team testing and assessments, and to conduct ergometer and such other tests as required in order for the Selectors to assess the specified selection criteria.

9) World Championship and World Cup Tour Team announcements:

The World Cup Training Squad will be announced on 20 April 2026.

The crews for the 2025 World Cup Tour will be announced on 8 May 2026.

10) Australian National Rowing Championships (ARC), Lake Barrington, Tasmania:

All Olympic athletes nominating for National Team selection are required to participate in at least three events during this regatta, at least two of which must be for their club, and at least one of which must be for their State/Territory (if selected).

- a) Rowers nominating for sculling selection must compete for their club in the 1x, and those that have nominated for sweep must compete for their club in the 2-. The selectors may nominate 2- combinations to be raced at the ARC.
- b) Para Rowers are required to race in their classified boat type and race for their state if selected. The selectors may nominate 2- combinations to be raced at the ARC
- c) Races will be conducted as part of the National Championship regatta.

Such athletes must also participate in a maximum of one event for their State/Territory (if selected).

11) World Rowing Championships Boat Minimum Selection Standard:

Selectors will use their experience, knowledge and judgement to select crews to reach a minimum selection standard for the 2026

World Rowing Championships. They are based on the standard required to achieve a predicted LA 2028 Qualification position. (* These will be updated when the qualification quota is released by World Rowing.)

During the domestic season selectors will use the results of testing and assessments outlined in these Selection Requirements and compare boats between each other against RA Gold Medal Times to ascertain the boats potential to achieve the World Rowing Championship minimum selection standard at the World Cups. Consideration will be given to boats with “young seniors” who may be selected outside of these standards.

During the International Season the Selectors will use their discretion and judgement in applying the standard including assessing boats that have finished ahead of Australian crews in World Cup results, other World Cup racing and International Regattas. Judgement will be used for extenuating circumstances e.g., injury, illness or crew changes... Consideration will be given to boats with “young seniors” who may be selected outside of these standards.

Boat Class (Male and Female)	Olympic Qualification Positions - 2027 World Championships (TBC)	Australian Minimum Selection Standards (TBC)
1x	9	12
2x	11	12
4x	7	9
2-	11	12
4-	7	9
8+	5	8
L2x	7	10
PR1 1X	7	8
PR2 Mixed 2X	6	8
PR3 Mixed 2X	5	6
PR3 Mixed 4+	6	6

Notwithstanding anything in these Selection Requirements, the Selectors have the power, in accordance with the Selection Policy, to change the composition of a boat as a result of performances at World Cup 1 or World Cup II (as the case may be). Should the selectors choose to exercise their discretion under the Selection Policy, then that boat as modified may compete at subsequent World Cups or the World Championships (as the case may be).

For the avoidance of doubt, the act of changing the composition of that boat does not disqualify it from being selected to compete at subsequent World Cups; or to be selected for the World Championships (as the case may be).

12) General:

- a) Reference to a rower or to rowers in these Selection Requirements means oarsmen and oarswomen.
- b) Reference to an athlete or athletes in these Selection Requirements means all eligible rowers and coxswains
- c) Reference to a crew in these Selection Requirements includes a single sculler.
