

## 2016 Event Requirements for U23 Australian Rowing Team

### **Background:**

The Rowing Australia (RA) Selection Policy 2013-2016 outlines the broad selection criteria for all rowers, coxswains and coaches and can be viewed on the RA website at [www.rowingaustralia.com.au](http://www.rowingaustralia.com.au).

The vision of the RA High Performance Program is to be the number one rowing nation in the world.

The objective of the Selection Policy is to provide a framework that underpins the vision by selecting the Athletes and the boats that will give Australia the best chance of achieving its performance objectives of winning medals, and most importantly Gold medals, at the Olympic and Paralympic Games.

This document operates as an appendix to the RA Selection Policy 2013-2016 and outlines the activities that rowers, coxswains and coaches must complete to be eligible for selection consideration for the Australian Under 23 (U23) Rowing Team for 2016.

Performance through the selection process will guide the selection panel's decisions. The selection process includes:

- Reviewing the race data and results in relation to expected performance standards and if clear then decisions can and will be made.
- Consideration of the performance context. The performance context includes where the standard of a performance would fit on the world stage.

The Selectors, as part of the selection criteria, are obliged to consider the objective race data and results but there are situations where consideration of this data alone does not indicate a clear selection outcome, particularly with crews. In situations like these, the Selectors will apply a standard which calls for a value judgment and overall assessment of the range of selection criteria when making a selection decision. Selectors will take into account the selection criteria in part 3 of the Selection Policy and will be giving significant weighting to the athlete's boat-moving ability and his or her individual performance data as listed in the event requirements listed below.

Boats will be selected based upon the Selectors' assessment of a boat's ability to achieve RA's High Performance Program vision, including on-water performances that satisfy the Selectors in their discretion of a clear and demonstrated ability to make an A final at the 2016 Under 23 World Rowing Championships. The Selectors' overriding priority will be to select the best performing boats, which have satisfied the selection criteria and benchmarks. In determining which categories of boat for selection of a crew to attend the Under 23 World Rowing Championships, the Selectors may also consider category development.

The Selectors will limit the number of crews selected to compete at the U23 World Championships to a maximum of eight (8) crews from:

- six (6) crews from those crews that otherwise meet the selection requirements and standards (including on-water performance benchmarks) at or prior to the Australian U23 Selection Trial #1; and
- up to two (2) further crews that otherwise meet the selection requirements and standards (including on-water performance benchmarks) at or prior to the Australian U23 Selection Trial #2,

with the category from which the crew(s) shall be selected (if any) to be at the Selectors' sole and absolute discretion.

For the avoidance of doubt, the maximum number of crews to be selected to compete at the 2016 U23 World Championships shall not exceed eight (8).

U23 Athletes who seek Senior A selection will need to satisfy the requirements set out in the Senior A Event Requirements, which are available on the RA Website. At the point where such athletes are no longer in contention for Senior A selection, they must then satisfy the remaining requirements set out in the U23 Event Requirements for 2016.

Rowing Australia, through the National Talent Pathway Program (NTPP), is enhancing the selection process to provide opportunities for Australian oarsmen and oarswomen based in the USA. The US-Based Australian Program will provide an opportunity to gain selection into a limited number of Under 23 boat classes in 2016. This document contains specific details for athletes based in Australia, and US-Based Australian athletes.

**NB:** The details contained within these 2016 Event Requirements are subject to change. Without limitation Rowing Australia may amend the 2016 Event Requirements by announcing and publishing further or varied requirements and standards from time to time prior to the relevant event or trial and the publication or notification shall take effect in accordance with the 2016 Selection Policy 2013-2016.
