

Head Coach - Reinhold Batschi Men's National Training Centre

Excellence looks different to everybody. But at Rowing Australia we believe that no matter how you get involved, our sport develops excellent people. Rowing Australia is an organisation that nurtures and develops talent, giving opportunities to those who are in search of excellence. Our High Performance program strives for sustainable success through implementing World's best athlete development and support systems.

The role

The position of Head Coach of the Reinhold Batschi Men's National Training Centre is a prestigious and highly valued position within Rowing.

Rowing Australia is seeking a proven world class coach to build on the Team's success at the Tokyo Olympics. This individual will have a demonstrated ability to lead and inspire athletes and to produce podium performances. This is a key leadership role in the Rowing Australia High Performance program, with responsibility for leading and driving a culture that understands and respects the synergy between wellbeing and performance.

This is a fulltime position, offering a highly competitive remuneration package based on the successful candidates experience and demonstrated competency.

This is an identified position requiring a current Working with Children Check.

For further information about the role and the key accountabilities please see the job description.

Who are we looking for:

A proven coach and leader, who has demonstrated:

- they can develop and sustain a high-performance culture that drives sustained performance.
- a strong, sustained record of coaching crews to international podium performances.
- a clear understanding of the importance of wellbeing as a key plank of an environment for sustained high performance success
- experience leading a team of senior coaches to collaboratively develop and deliver podium performance
- successful leadership of a high-performance sport support team to achieve holistic athlete and sport performance outcomes.
- experience implementing and driving monitoring systems for athlete development and tracking.
- ability to develop, manage and lead a world class support team that meets the demands of podium performance.
- contemporary knowledge of trends and progression in coaching science, technology and practice that contribute to athlete success.
- knowledge of talent pathway considerations and associated athlete success profile for stages of the pathway.
